OneNet partnered with the Council for Online Learning Excellence (COLE) to develop virtual reality toolkits. These toolkits provide resources to utilize extended realities (XR) to improve teaching and learning. Anyone interested in taking advantage of this opportunity is encouraged to submit the form. Please have a clear concept in mind along with a timeline. Southeastern, Southwestern, Rogers State, and UCO currently have projects going. Kaitlin Crotty, at Rogers State, reported that their campus is working on a project, and students are excited.
