Chancellor

The Oklahoma State Regents for Higher Education, in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11236 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws, do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap or status as a veteran in any of its policies, practices, or procedures. This includes, but is not limited to, admissions, employment, financial aid and educational services.

This publication, duplicated by the State Regents' central services, is issued by the Oklahoma State Regents for Higher Education as authorized by 70 O.S. 2001, Section 3206. Copies have been prepared and distributed internally. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

# Oklahoma Educational Indicators Project

## Mean ACT Scores by High School Site

### Background

With the passage of the "Oklahoma 2000 Education Challenge Act" in May of 1989, the state of Oklahoma affirmed a commitment to promoting excellence in the education of Oklahoma children. The act established that the State Board of Education publish annually a summary report of information provided by the Oklahoma Educational Indicators Project. The purpose of this program is to develop and implement a system of measures or indicators of educational performance. The act also mandated that the Oklahoma State Regents for Higher Education (OSRHE) cooperate in the annual publication of this report. The State Regents, with the cooperation of the State Department of Education and other agencies, has participated in the development of indicators of comparative educational standing and accomplishment. The High School Indicators Project reports on: (1) ACT scores, (2) college-going rates, (3) college credit hours and GPA, and (4) remediation rates.

This Mean ACT Scores High School Indicators Project report provides the mean ACT scores of Oklahoma high school graduates. The ACT test is a measure of educational development. Performance on the test is influenced by the student's educational experiences. The ACT Corporation cautions against using the ACT test scores in isolation from other measures to infer the overall quality of schools and education within a state. Specifically, the ACT tests are designed to measure high school students' educational development as related to their readiness to pursue further study at the college level.

The ACT test-takers included in this report are those students taking the ACT who were in the 2003 graduating class. For the twelfth year, Oklahoma has the opportunity to evaluate the performance of students who took the ACT exam. The mean ACT scores are reported by county, district, and high school site. For high schools with five or fewer ACT test-takers, an asterisk was entered to comply with the federal privacy act.

### Methodology

The State Regents compute the mean ACT composite and subject scores for the state of Oklahoma and each individual high school site. This computation is based on the *highest* test score of those who took the ACT more than one time. ACT, Inc. calculates the mean ACT composite score on the *last* test score. Therefore, the computed mean ACT scores by OSRHE and ACT, Inc. are not comparable. For example, 2004 high school graduates earned a mean ACT composite of 20.8 when calculated using the highest score and 20.6 when calculated using the last score. The rationale for using the highest score is that Oklahoma higher education policies rely on ACT scores and other relevant data in making collegiate level decisions for the student. Consequently, the highest score more accurately reflects student achievement.

The student's ACT score is attributed to the high school where the highest score was earned. If the high school code does not match an Oklahoma high school, then other test dates are searched for a valid high school code. If no match is found for an Oklahoma resident, then the score is excluded from the report.

## Summary of Results

The table of 2004 High School Graduate Mean ACT Scores lists the composite scores by county. When counties are ranked from highest to lowest, Payne County ranks first with 22.1; followed by Cleveland County (22.0); Tulsa County (21.8); Washington and Kay County (21.7); Oklahoma County (21.6); and Noble County (21.5). The map found on page 4 depicts these same mean ACT composite scores categorized according to their range.

The mean ACT composite scores range from 13.2 for Boynton High School in Muskogee County with 6 test-takers to 30.5 for the Oklahoma School of Science and Math in Oklahoma County with 72 test-takers. The high school with the largest number of graduates who took the ACT exam was Broken Arrow High School in Tulsa County with 665 test-takers and a mean ACT composite of 21.9, followed by Union High School in Tulsa County with 654 test-takers and a mean ACT composite of 22.4.

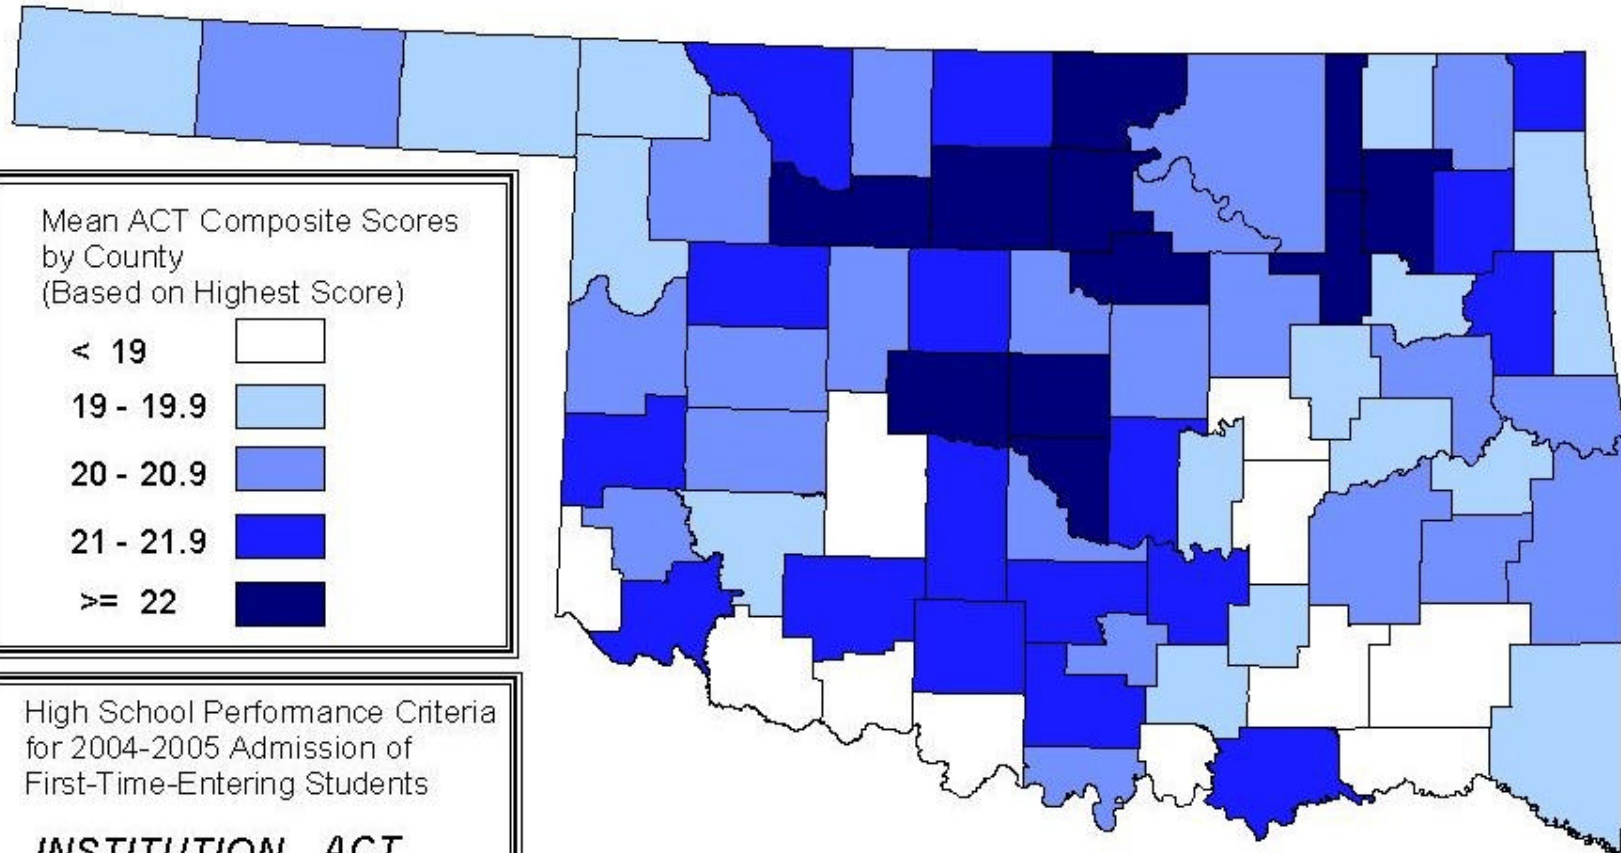

Subject scores are also based on the highest subject score for those 2004 graduates who took the ACT more than one time. Ranked highest to lowest the mean subject scores for the state of Oklahoma are as follows: reading (21.8), science reasoning (21.1), English (20.8), and mathematics (20.2). The scores range from a high of 31.4 in mathematics to a low of 11.3 in English.

The table entitled "ACT Score Distributions, Cumulative Percentages, and Averages for All Students" for Oklahoma and the nation is from the [ACT High School Profile Report, H S Graduating Class 2004](#). According to ACT, 1,171,460 high school graduates across the United States took the test. Oklahoma high school graduates represent 26,556 of these test-takers. Most of these Oklahoma test-takers, 26,348 or 99.2 percent, provided enough information to be matched with a high school ACT code and Oklahoma State Department of Education county/district/site code.
