# **Oklahoma High School Indicators Project**

## **High School to College-Going Rates: for Oklahoma High School Graduates to Oklahoma Colleges**

### **Introduction**

The State Regents as part of a cooperative effort with the State Department of Education to provide measures or "indicators" of educational performance has produced the "High School to College-Going Rates for Oklahoma High School Graduates" report.

The annual report of the "High School to College-Going Rates for Oklahoma High School Graduates to Oklahoma Colleges" is one of four reports in the High School Indicators Project. This project is part of the State Regents' cooperative effort with the State Department of Education to provide measures or indicators of educational performance on: (1) mean ACT scores, (2) college-going rates, (3) college credit hours and GPA, and (4) remediation rates. These reports are available to Oklahoma high school superintendents, principals, and presidents of school boards to inform them of the level of preparedness of their students who go on to college.

### **Methodology**

The data used to construct this report come from two sources, the Oklahoma State Department of Education and the Oklahoma State Regents for Higher Education. Data derived from the State Department are aggregate data, not individual student data, reported to the Department by individual high schools each year. The State Regents' data are created from the Unitized Data System (UDS). The UDS contains a large number of distinct "units" of data for individual college students every semester. Because no comparable database exists for high school students, recent high school graduates are estimated by ages 17, 18, and 19.

The counts from the current annual report and reports of the previous two years have been combined to provide a three-year average Oklahoma college-going rate. This average provides a more stable number for small high school sites. The following single-year reports are provided for each of the three years used to construct the average college-going rates: (1) the college-going rate for 2004 high school graduates going to college in 2004-2005, (2) the college-going rate for 2005 high school graduates going to college in 2005-2006, and (3) the college-going rate for the 2006 high school graduates going to an Oklahoma college in 2006-2007.

There are two kinds of rates shown on these reports. The first rate is the Linear College-Going Rate. This rate measures the movement of Oklahoma high school graduates who go directly to an Oklahoma college the following year. The second measure of movement is that of the Combined College-Going Rate. This method of examining the flow of high school graduates into higher education combines those students who attend directly out of high school with those students who have delayed entry for one year or more.

The number of first-time freshmen in this report cannot be compared to the number of first-time freshmen in the High School Indicators Headcount, Semester Hours, and GPA report, because the College-Going Rate report accounts for first-time freshmen at both public institutions of higher education and those private institutions of higher education that report to the UDS. The Headcount, Semester Hours, and GPA report accounts for only public institutions of higher education.

## **Summary of Results**

### **Linear Rate**

The three-year average Linear College-Going Rate for Oklahoma colleges in 2006-2007 was 57.6 percent of the 2004, 2005 and 2006 Oklahoma high school graduates (Table 1). The following table lists 7 of the 77 Oklahoma counties with an average college-going rate greater than or equal to the state average.

<b><u>County</u></b>	<b><u>Rate</u></b>	<b><u>County</u></b>	<b><u>Rate</u></b>	<b><u>County</u></b>	<b><u>Rate</u></b>
Cleveland	63.5%	Grant	63.0%	Washita	59.5%
Canadian	58.7%	Oklahoma	58.3%	Kingfisher	57.6%
Harmon	57.5%				

The Linear College-Going Rate for Oklahoma colleges in 2006-07 was 57.4 percent of the 2006 high school graduates. The following table lists the counties with college-going rates equal to or greater than the state average.

<b><u>County</u></b>	<b><u>Rate</u></b>	<b><u>County</u></b>	<b><u>Rate</u></b>	<b><u>County</u></b>	<b><u>Rate</u></b>
Cleveland	69.6%	Grant	66.7%	Woods	64.1%
Canadian	62.7%	Washita	62.6%	Johnston	62.2%
Love	61.4%	Ellis	60.9%	Alfalfa	60.6%
Noble	60.0%	Oklahoma	60.0%	Mc Clain	59.8%
Kingfisher	59.7%				

The Linear College-Going Rate of high school graduates by institutional tier level is also reported in this report (page 12). The research tier comprises 12.7 percent of the total 57.4 percent linear college-going rate for the state. The four-year regional tier consists of 16.9 percent with the two-year tier consisting of the remaining 26.1 percent. Figure 1 illustrates the three-year average linear and combined movement of Oklahoma high school graduates into public and private colleges by county.

### **Combined Rate**

A county comparison of the three-year average Combined Rate for 2004, 2005, and 2006 Oklahoma high school graduates (Table 2) shows six counties with an 80 percent or greater college-going rate.

<b><u>County</u></b>	<b><u>Rate</u></b>	<b><u>County</u></b>	<b><u>Rate</u></b>	<b><u>County</u></b>	<b><u>Rate</u></b>
Le Flore	87.5%	Sequoyah	87.0%	Cleveland	86.9%
Haskell	85.7%	Oklahoma	83.0%	Canadian	80.0%

For the most recent single-year, 2006-07, the following Oklahoma counties had a combined rate of 80 percent or higher.

<b>County</b>	<b>Rate</b>	<b>County</b>	<b>Rate</b>	<b>County</b>	<b>Rate</b>
Cleveland	92.2%	Mc Clain	88.3%	Canadian	85.0%
Oklahoma	84.6%	Johnston	83.8%	Grant	82.7%
Garvin	80.7%	Kingfisher	80.1%		

**Caveat**

The data displayed in this report are not complete in several respects. First, there are several private high schools and home-schooled students in Oklahoma not reported on the State Department of Education database. Second, there are several private colleges and universities that do not participate in State Regents' Unitized Data System. Third, the coding of first-time freshmen depends entirely on institutional input, because a statewide high school database does not exist in Oklahoma.

The report also does not track out-of-state students, nor does it include those students who received GEDs or dropped out of high school prior to graduation, but attended college as an adult or through admission to an "open-door" institution for which high school graduation is not required.

Latimer	96.7%	88.2%	62.4%	79.8%					

Note: State totals are not provided for the combined rate due to the number of students in county unknown, which artificially inflates the state totals.

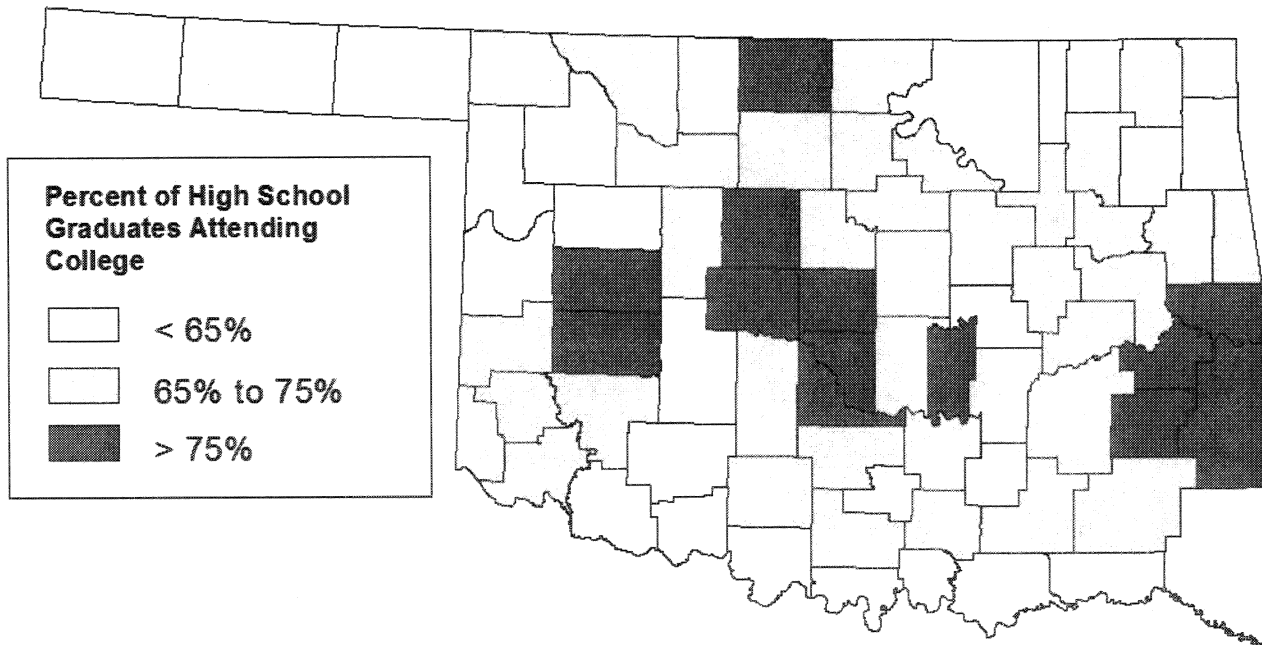

Linear rate measures the movement of high school graduates who go directly to college the following year.

Combined rate examines the flow of high school graduates into higher education by combining those students who are attending directly with those students who have delayed entry for one year or more.

\*The sum of the public and private tier-levels for the county may not equal the county totals in the site-level portion of this report due to rounding.

1: Source: Oklahoma State Department of Education (SDE) - does not include data from private high schools that are not accredited with SDE or home-schooled students.

2: Source: Oklahoma State Regents for Higher Education - several private institutions of higher education do not participate in the state regents' UDS and if institutions miscode, data are not reportable.

Note: These percentages are based on data from the Oklahoma State System's Unitized Data System using first-time entering freshmen who were 17-18-19 year olds and were Oklahoma High School Graduates.
