Oklahoma High School Indicators Project

High School to College-Going Rates: for Oklahoma High School Graduates to Oklahoma Colleges

Introduction

The State Regents as part of a cooperative effort with the State Department of Education to provide measures or "indicators" of educational performance has produced the "High School to College-Going Rates for Oklahoma High School Graduates" report.

The annual report of the "High School to College-Going Rates for Oklahoma High School Graduates to Oklahoma Colleges" is one of four reports in the High School Indicators Project. This project is part of the State Regents' cooperative effort with the State Department of Education to provide measures or indicators of educational performance on: (1) mean ACT scores, (2) college-going rates, (3) college credit hours and GPA, and (4) remediation rates. These reports are available to Oklahoma high school superintendents, principals, and presidents of school boards to inform them of the level of preparedness of their students who go on to college.

Methodology

The data used to construct this report come from two sources, the Oklahoma State Department of Education and the Oklahoma State Regents for Higher Education. Data derived from the State Department are aggregate data, not individual student data, reported to the Department by individual high schools each year. The State Regents' data are created from the Unitized Data System (UDS). The UDS contains a large number of distinct "units" of data for individual college students every semester. Because no comparable database exists for high school students, recent high school graduates are estimated by ages 17, 18, and 19.

The counts from the current annual report and reports of the previous two years have been combined to provide a three-year average Oklahoma college-going rate. This average provides a more stable number for small high school sites. The following single-year reports are provided for each of the three years used to construct the average college-going rates: (1) the college-going rate for 2002 high school graduates going to college in 2002-2003, (2) the college-going rate for 2003 high school graduates going to college in 2003-2004, and (3) the college-going rate for the 2004 high school graduates going to an Oklahoma college in 2004-2005.

There are two kinds of rates shown on these reports. The first rate is the Linear College-Going Rate. This rate measures the movement of Oklahoma high school graduates who go directly to an Oklahoma college the following year. The second measure of movement is that of the Combined College-Going Rate. This method of examining the flow of high school graduates into higher education combines those students who attend directly out of high school with those students who have delayed entry for one year or more.

The number of first-time freshmen in this report cannot be compared to the number of first-time freshmen in the High School Indicators Headcount, Semester Hours, and GPA report, because the College-Going Rate report accounts for first-time freshmen at both public institutions of higher education and those private institutions of higher education that report to the UDS. The Headcount, Semester Hours, and GPA report accounts for only public institutions of higher education.

Summary of Results

Linear Rate

The three-year average Linear College-Going Rate for Oklahoma colleges in 2004-2005 was 57.5 percent of the 2002, 2003 and 2004 Oklahoma high school graduates (Table 1). The following table lists 8 of the 77 Oklahoma counties with an average college-going rate greater than or equal to the state average.

<u>County</u>	<u>Rate</u>	<u>County</u>	<u>Rate</u>	<u>County</u>	<u>Rate</u>
Harmon	68.3%	Grant	62.8%	Washita	60.6%
Canadian	59.5%	Custer	59.2%	Oklahoma	58.8%
Cimarron	58.0%	Tulsa	57.7%		

The Linear College-Going Rate for Oklahoma colleges in 2004-05 was 58.6 percent of the 2004 high school graduates. The following table lists the counties with college-going rates equal to or greater than the state average.

<u>County</u>	<u>Rate</u>	<u>County</u>	<u>Rate</u>	<u>County</u>	<u>Rate</u>
Harmon	77.8%	Washita	65.1%	Harper	62.3%
Custer	61.4%	Canadian	60.7%	Kingfisher	59.9%
Rogers	59.7%	Oklahoma	59.4%	Cleveland	59.2%
Stephens	58.9%				

The Linear College-Going Rate of high school graduates by institutional tier level is also reported in this report (page 12). The research tier comprises 12.8 percent of the total 58.6 percent linear college-going rate for the state. The four-year tier consists of 17.0 percent with the two-year tier consisting of the remaining 25.5 percent. Figure 1 illustrates the three year average linear and combined movement of Oklahoma high school graduates into public and private colleges by county.

Combined Rate

A county comparison of the three-year average Combined Rate for 2002, 2003, and 2004 Oklahoma high school graduates (Table 2) shows seven counties with an 80 percent or greater college-going rate. Harmon County has the highest three-year average combined rate with 96.1 percent followed by Le Flore County with 95.8 percent, Sequoyah County with 89.2 percent, Washita County with 85.4 percent, Kiowa County with 84.8 percent, Greer County with 82.4 percent, and Oklahoma County which had a rate of 82.0. Figure 2 illustrates the linear and combined movement of Oklahoma high school graduates into public and private colleges by county in each of the last three years. For the most recent single-year, 2004-05, the following Oklahoma counties had a combined rate of 85 percent or higher.

<u>County</u>	<u>Rate</u>	<u>County</u>	<u>Rate</u>	<u>County</u>	<u>Rate</u>
Le Flore	124.1%	Sequoyah	123.5%	Haskell	105.7%
Harmon	103.7%	Latimer	96.7%	Washita	86.5%

Caveat

The data displayed in this report are not complete in several respects. First, there are several private high schools and home-schooled students in Oklahoma not reported on the State Department of Education database. Second, there are several private colleges and universities that do not participate in State Regents' Unitized Data System. Third, the coding of first-time freshmen depends entirely on institutional input, because a statewide high school database does not exist in Oklahoma.

The report also does not track out-of-state students, nor does it include those students who received GEDs or dropped out of high school prior to graduation, but attended college as an adult or through admission to an "open-door" institution for which high school graduation is not required.

Note: State totals are not provided for the combined rate due to the number of students in county unknown, which artificially inflates the state totals.

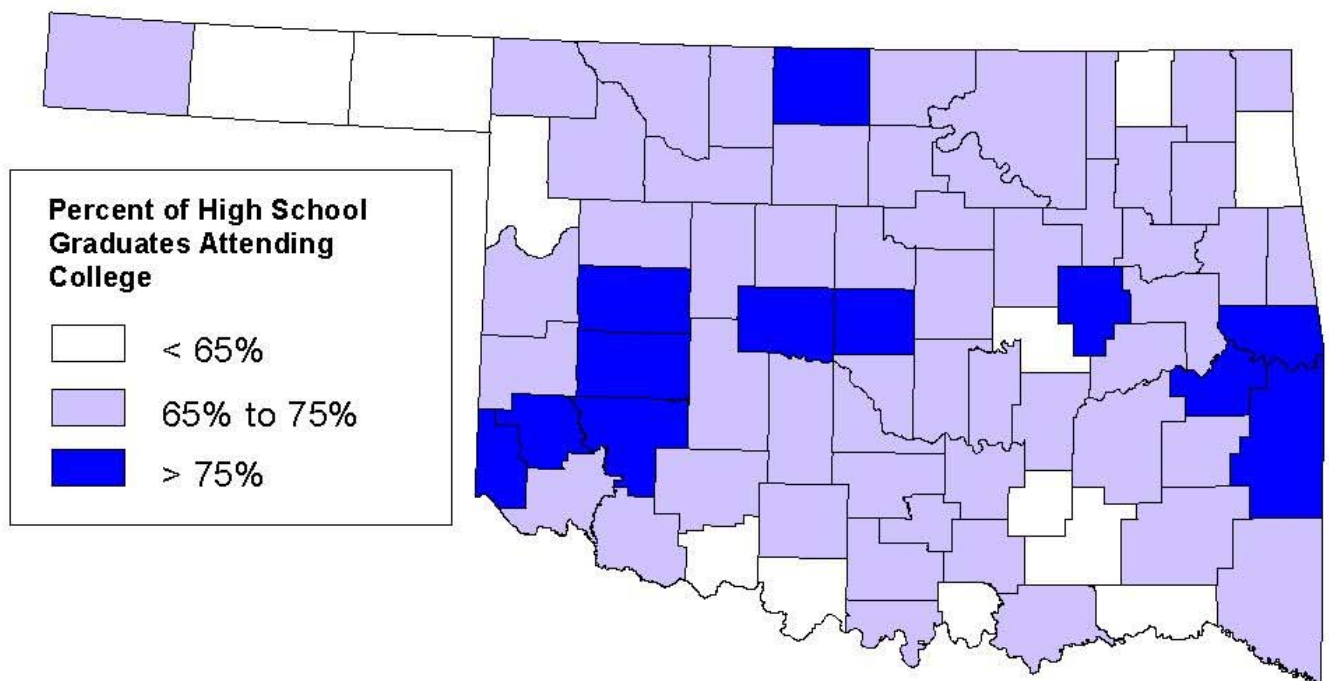

Linear rate measures the movement of high school graduates who go directly to college the following year.

Combined rate examines the flow of high school graduates into higher education by combining those students who are attending directly with those students who have delayed entry for one year or more.

*The sum of the public and private tier-levels for the county may not equal the county totals in the site-level portion of this report due to rounding.

1: source: Oklahoma state department of education - does not include data from private high Schools that are not accredited with SDE or home-schooled students.

2: source: Oklahoma state regents for higher education - several private institutions of higher Education do not participate in the state regents' UDS and if institutions miscode, data are not reportable.

Note: these percentages are based on data from the Oklahoma state system's unitized data system Using first-time entering freshmen who were 17-18-19 year olds and were okla. High school grads.
